

The School of
SAILING & SEAMANSHIP
| Orange Coast College

2019

**LEARN TO SAIL • POWER BOAT TRAINING
CRUISING • NAVIGATION • USCG LICENSING
MARINE MAINTENANCE • YOUTH CAMPS**

General Information

ACCESS

The OCC School of Sailing & Seamanship is a public boating facility providing access for the entire community. Classes are available for adult and youth students who meet basic prerequisites such as swimming ability, age and skills for specific classes. Young students age 7 to 14 may enroll only in classes specifically for junior sailors. All students enrolled in on-the-water classes must have basic swimming skills.

REGISTRATION

Registration is available online 24/7 at <https://occsailing.augusoft.net/>, and through our office during regular office hours. To register over the phone call us at 949-645-9412.

We encourage early registration to avoid disappointment. Some classes fill early and sometimes excellent classes with super instructors are cancelled if everyone waits until the last minute to register.

WEATHER

Classes are held regardless of weather. Rain or dangerous conditions will result in classes being moved indoors for lectures and demonstrations.

SCHOOL POLICIES

Classes will begin and end on time. Please allow ample time for driving and parking, especially on weekends. If you miss a class, you cannot make it up by attending another class. If you miss a class just attend the next session.

CANCELLATIONS & TRANSFERS

We understand that situations may arise that might make it necessary for you to cancel or transfer your class. Please realize that the later you notify us the less likely we are to fill the vacancy you have created. If you do not show up for a class you will not be eligible to receive school credit or transfer. No makeups or partial credit will be given if you miss a class or show up late. In the event of The School cancelling a class, the fee will be fully refunded.

You must notify us directly if you need to cancel/transfer a class by calling The School at 949-645-9412. The amount of your refund is determined by the date you notify us of your cancellation/transfer. Some fees may be waived if we can fill your vacancy. Any applicable course fee difference will be due at the time of transfer.

LIDO, SHIELDS, HARBOR 20 & LECTURE COURSES**

<u>Time of Cancellation/Transfer</u>	<u>Fee per person</u>
A processing fee applies to all cancellations/transfers at anytime	\$10.00
Within 4-days of course start date	\$25.00
Within 48-hours of course start	No refund

** For U.S. Coast Guard Licensing Course cancellation policies call The School

REGULAR OFFICE & LIBRARY HOURS

Mon-Fri	9:00 am – 5:00pm
Sat-Sun	9:00 am – 2:30pm

Evening hours vary depending on the class schedule. Call the office at (949) 645-9412 for more information.

WINTER HOLIDAY SCHEDULE

Mon-Tues	Dec 17-18, 2018	9:00am-5:00pm
Wed-Fri	Dec 19-21, 2018	9:00am-2:30pm
Sat-Sun	Dec 22-23, 2018	10:00am-2:00pm
Mon	Dec 24, 2018	9:00am-12:00pm
Tues	Dec 25, 2018	Closed
Wed-Fri	Dec 26-28, 2018	8:30am-1:30pm
Sat-Mon	Dec 29-31, 2018	Closed
Tues	Jan 1, 2019	Closed

The School will be closed on the following holidays:

President's Weekend	Feb 16-17, 2019
Easter Weekend	April 20-21, 2019
Memorial Day Weekend	May 25-27, 2019
4 th of July	July 4, 2019
Labor Day Weekend	Aug 31-Sept 2, 2019
Thanksgiving Weekend	Nov 28-Dec 1, 2019

POWERBOAT, CERTIFICATION, CRUISING AND OVERNIGHT COURSES

<u>Time of Cancellation/Transfer</u>	<u>Fee per person</u>
A processing fee applies to all cancellations/transfers at anytime	\$25.00
4-weeks or less prior to course start date	\$50.00
3-weeks or less prior to course start date	25% of course fee
2-weeks or less prior to course start date	50% of course fee
Within 7 days of course start date	No refund

The Boating Escape

Welcome to your opportunity to escape--however briefly--one of the largest metropolitan areas in the world. Living close to the coast makes boating possible on a regular basis. Mastering sailing or powerboating skills will make the boating life a reality for you and your family. This catalog offers classes that will help you access Southern California's greatest recreation area, the Pacific Ocean.

As one of the nation's most comprehensive boating schools, our courses allow you to choose your path toward becoming a skipper of a sail or power boat. We've had students start out in our Lido 14 dinghies and a few years later, sail to Tahiti. But for most of us, just sailing on the ocean, or over to Catalina Island is a great goal. Regardless, getting out on the ocean off our coast is a fine way to fully leverage coastal living.

We are dedicated to high quality instruction at the lowest possible price. Thanks to our community partners and many donors, we are able to offer you excellent instructors, facilities, and boats seven days a week, year around. So there is no reason to wait. Enjoy this catalog, and set your course for getting underway soon.

The Marine Program at Orange Coast College is one of the nation's largest non-profit public boating education institutions. Founded in 1960, this comprehensive program offers a wide variety of nautical learning experiences in the classroom and on the water. We are dedicated to providing all community members with access to high quality, low cost sailing and seamanship education.

The School of Sailing & Seamanship is a fee-based, self supporting non-credit community program which offers dozens of classroom and on the water courses for youth and adults. The School operates more than three dozen sailing and power vessels, ranging from 14 to 92 feet. The School operates year-round, seven days a week, with the majority of courses held on evenings and weekends. Courses range from Beginning Sailing through Ocean Voyaging and powerboat training. The average yearly enrollment is 1,500.

The Coast Guard Licensing program offers professional level classes in Coast Guard License Preparation, Radar Observer and Basic Safety Training.

Nordic Star was donated to the OCC Foundation in 2010 and operates as a training vessel for students in the Professional Mariner Program as well as a private charter yacht on Newport Harbor and at Catalina Island.

The Professional Mariner Program at Orange Coast College is a 19-unit credit vocational program, designed for college students interested in careers in the maritime industry. The courses in this program are offered during the school year through the OCC Consumer Health Sciences division.

Credit Sailing Courses are offered during the school year through the Kinesiology Department. Beginning and Intermediate classes are held on weekdays.

Donations - The majority of vessels in the program are gifts from private individuals. Maintenance of the program's vessels and facilities are almost exclusively funded through fees, grants, and private giving.

This unique community program is thankful to its partners including all students, California State Parks Division of Boating and Waterways, the County of Orange, the Coast Community College District, Orange Coast College, many non-profit family foundations, and corporate and private donors.

Beginning Sailing

Prerequisite: Participants must be at least 14 years old and able to swim 50 yards.

If you have never sailed before or just have a little experience sailing with others, this is the class for you. You will learn basic sailing skills and gain confidence through dockside lectures and hands-on experience in Lido 14 dinghies. Dinghy sailing is a physical activity and participants should have physical stamina, good balance and be capable of moving about safely in the boat. Topics will include sailing theory, points of sail, basic terminology, tacking, gybing, safety, knots and docking. Eighty percent of class time is spent enjoying the outdoors and sailing the Lidos within Newport Bay. Two to three students per boat. Min 10/Max 24 students.

Intermediate Lidos (Lido 2)

Prerequisite: Successful completion of Beginning Sailing or equivalent dinghy sailing experience.

Intermediate Lidos is about skills development so you can sail faster and smarter with greater confidence. With an emphasis on improving boat-handling skills as both skipper and crew, refining sail trim and problem solving afloat, you will spend most of your class time on the water practicing, and expanding on, the skills you learned in Beginning Sailing. The importance of balance and teamwork will become evident as you learn how to maneuver without a rudder using only the sails and the crew weight. Single-handed sailing will be introduced time permitting. Upon successful completion of Intermediate Lidos you will be ready to move on to Harbor 20 Level 2 or Shields 1. Min 8 /Max 16 students.

Lido Racing Clinic

Prerequisite: Beginning Sailing or equivalent dinghy sailing experience

Racing is a great way to expand and solidify your sailing skills. You will learn how to sail the boat faster and more efficiently using sail trim and crew weight to maximize your boat speed, and improve your overall sailing skills. You will learn racing tactics and strategies, how to start and round a mark, and racing rules. Even if you don't plan to continue to race you will appreciate the enhanced understanding of safe and efficient sailing gained in this class. Min 6 – Max 24 students.

Day	Start-End	Time	# Sessions	Fee
Sun	4/14	2:00-6:00	1	\$40
Sun	7/7	2:00-6:00	1	\$40
Sat	8/3	2:00-6:00	1	\$40
Sat-Sun	9/21-9/22	1:45-5:30	2	\$75
Sat	11/16-11/23	1:15-5:00	2	\$75

*No session 2/16, 4/21, 5/25, 5/26, 8/30, 8/31, 9/1, 11/30, 12/1

Harbor 20 – Level 1

Prerequisite: Participant must be at least 14 years old and able to swim 50 yards.

Learn the fundamentals of sailing on a comfortable and stable Harbor 20 sailboat. With a maximum of 3 students per class you will enjoy more personalized instruction through a combination of classroom and on-the-water practice. You will learn basic sail theory, terminology, tacking, jibing, crew coordination, points of sail, safety, right of way, knots and docking. Eighty percent of class time is spent sailing the Harbor 20 within Newport Harbor. Min 2/Max 3 students.

Harbor 20 – Level 2

Prerequisite: Harbor 20 – Level 1, Intermediate Lido or equivalent experience.

Harbor 20 Level 2 builds upon the sailing fundamentals learned in Harbor 20 Level 1 and provides a great transition for students moving from intermediate lidos to small keelboats. You will practice your sailing skills and gain experience and confidence rigging and sailing the Harbor 20. Topics include docking procedures, crew communication, roller furling operation, points of sail and sail trim, crew overboard, reefing, safety equipment, rules and knots. By the end of this class you will be ready to move on to Shields 1, or if your goal is to take friends and family sailing on Newport Bay ask your instructor if you are ready for the Harbor 20 Level 2 Extra to complete the practice test for Harbor 20 rental. Min 4/Max 8 students.

Private Lessons

Private lessons offer the ultimate learning experience for students with a “complicated schedule”, a particular goal, or if you simply want to make up a missed class. A private lesson with an OCC instructor will take your ability to the next level with individual learning and feedback.

Choose your instructor, what you want to improve, what boat you want to sail, and at what pace you want to progress. Private lessons are scheduled for a minimum of 3-hours except for powerboat instruction.

Boat	1 or 2 people	Add'l hr	Add'l person
Lido 14	\$185	\$60	\$50
Harbor 20	\$205	\$70	\$50
Shields	\$205	\$70	\$50
Catalina 42	\$270	\$90	\$50
Power	\$205/hr		
Whaler	\$95/hr		

Call (949) 645-9412 for reservations

Certification Challenge

The US Sailing Keelboat Certification System and the US Powerboating Cruising Powerboat Certification Series include a series of skill levels based on the natural progression of experience from operating a boat during the day to cruising and then extended passage making.

Sailors/Power-boaters with significant previous experience and competency, may challenge the desired level of certification by successfully demonstrating the skill set we expect for the desired level of certification. A passing grade on the multiple choice exam for the desired certification and any/all lower level certifications is required for final certification. All challenges are pass/fail and the fee is nonrefundable.

Challenge	Fee*	Duration
US Sailing Basic Keelboat	\$400	3 hour practical
US Sailing Basic Cruising	\$520	3 hour practical
US Sailing Bareboat Cruising**	\$670	6 hour practical
US Powerboating Basic Powerboat Cruising	\$570	4 hour practical
US Powerboating Inshore Powerboat Cruising**	\$670	6 hour practical

*Fee includes text book(s) and certification materials

** After successfully completing the on-the-water skills evaluation and written exam, candidates can apply for the IPC directly on US Sailing's website.

Call The School at 949-645-9412 to arrange date.

Shields 1

Prerequisite: Intermediate Lido, Harbor 20-Level 2 or equivalent experience.

An intermediate sailing class where the skills you acquired in your learn to sail classes will be applied and reinforced as you transition to the heavier, and more powerful 30' Shields sloop. You will learn how to rig the Shields, docking, reefing, general seamanship skills, skipper and crew responsibilities, right-of-way rules and safe handling of a larger boat. This course will require you to be physically active while enjoying your time on the water. Min 6/ Max 15 students.

Fri	11/1 - 11/22	12:00-5:00	4	\$ 175

Shields Spinnaker Clinic

Prerequisite: Shields 2, US Sailing Basic Keelboat Cert, or equivalent experience

Spinnakers are used by both racers and cruisers to gain extra speed when sailing downwind and while often perceived as intimidating, this class will show you how easy and fun flying a spinnaker can be. You will learn how to set up the boat and rig the spinnaker pole, and how to set, trim, gybe and drop a symmetrical spinnaker. At the end of class you will have the skills you need to fly the spinnaker safely in moderate conditions. Min 3/Max 9 students.

Text: *US Sailing Basic Keelboat*, spinnaker handout

Day	Start-End	Time	# Sessions	Fee
Sat	4/6-4/13	1:45-5:30	2	\$125
Sun	8/25-9/8*	1:45-5:30	2	\$125
Sun	10/20-10/27	1:45-5:30	2	\$125

*No session 2/16, 4/21, 5/25, 5/26, 8/30, 8/31, 9/1, 11/30, 12/1

Shields 2

Prerequisite: Shields 1 or equivalent experience

For intermediate sailors who are ready to take their skills to the next level and eager for more quality sailing time. Shields 2 will also help you prepare for the US Sailing Basic Keelboat Certification Class. Class begins with a brief review of skills learned in Shields 1, but you are already comfortable with the points of sail, the difference between tacking and jibing and right of way rules. Shields 2 topics will include a more in depth look at sail trim and shape, heel control, wind shifts, helm control, apparent wind, crew over board, anchoring, jury rigging, crew work and safety. Ocean sailing (weather conditions permitting). Min 6/ Max 12 students.

J/105 – Level 1

Prerequisite: Swimming ability; Shields 1 or equivalent experience

This class will introduce you to the J/105 and the features of a one-design sportboat including the retractable bowsprit, asymmetrical spinnaker and hydraulic backstay. While sailing the J/105 you will experience all aspects of the boat from steering to trimming sails to deploying the bowsprit, setting and dousing the asymmetrical spinnaker and of course hiking! Other topics include crew positions and basic spinnaker trim, steering to the tell tales, packing the asymmetrical spinnaker and much more. Min 3/Max 5 students.

J/105 Summer Thursday Racing

Prerequisite: J/105 Level 1 or equivalent experience. Ability to swim 50 yards.

Join us for Thursday night racing on OCC's J/105, *Becky*. One of the most popular high performance keelboats, the J/105 is very responsive and fun to sail. Thursday night racing action in Newport Harbor (non-spinnaker), sponsored by BYC, is competitive but fun! Whether you are a seasoned racer or just want to get a taste of the action, you'll participate in every aspect of getting *Becky* to the starting line, driving, trimming and making tactical decisions.

J/105 – Level 2

Prerequisite: J/105 Level 1, or equivalent experience

For graduates of J/105 Level 1 this class will improve your J/105 boat handling skills, understanding of sail trim and ability to handle the asymmetrical spinnaker. Class will focus on refining helm work, setting, gybing and various techniques for dousing the asymmetrical spinnaker, proper management of the retractable bowsprit, advanced sail trim including powering up and depowering the sail plan, trimming techniques, upwind boat handling and crew organization. Broaching avoidance and recovery will also be covered. Min 3/Max 5 students.

Basic Keelboat Certification

*Blended Learning –
Online & Instructor-led on-the-water skill sessions*

Prerequisite: Shields 2 or equivalent experience

For students who have completed Shields 2 and are ready to pursue the US Sailing Basic Keelboat Certification. This course is a blended learning course and upon registration you will receive access to the US Sailing online Basic Keelboat program. Learn and be tested on introductory sailing topics at your own pace before coming to class to practice the skills you learned online.

This blended-learning course will give you more time on the water than a traditional sailing course as you will complete the vast majority of the classroom time on your own. Each sailing session will begin with a brief review of the online material, and then you will get to spend the rest of the time sailing and perfecting those skills on the water.

Course topics for this extensive sailing course include tacking, jibing, crew coordination, navigation rules, basic chart reading, sail theory, docking, anchoring, reefing, heaving to, and crew overboard recovery.

Your active participation at home, in the classroom and on the water is essential for success. A passing grade on both the written and the practical test is required for certification. Upon successful completion of this course, you will receive your US SAILING Basic Keelboat Certification and be ready to move on to Basic Cruising 1. Min 4/Max 9 students.

Keelboat Certification Package

Register for Shields 1, Shields 2 and Basic Keelboat Certification and save!
Keelboat Certification Package - \$645.00

Harbor 20 Level 2 Extra

Prerequisite: Current OCC SA membership, Shields 1, Harbor 20 Level 2 with instructor recommendation, or equivalent experience. A passing grade on the written Harbor 20 rental exam.

An intensive course for students interested in renting the Harbor 20 for day sailing. Class time will be 20% review and 80% evaluation of student skills. Students in this class are able to sail the Harbor 20 proficiently on all points of sail with proper sail trim, confidently leave and return to the dock, and have prior experience reefing and performing a crew overboard recovery.

Active participation is essential for success. A passing grade on the written test prior to start of class and successful completion of all skills assessments are required for rental certification. Min 2/Max 4 students.

OCCSA- Orange Coast College Sailing Association

If you are committed to learning all about sailing from knots to compass bearings, then you should consider becoming a member. Members range in age from 18 to 80 years, and they are all enjoying each other's company on the water. The only prerequisite is a love of sailing and volunteerism. Attend a monthly meeting to find out what we are all about. Show up and see what sailing can do for you.

Membership Benefits

- Members receive a 10% discount on many on-the-water and evening courses
- Rental privileges of Lidos, Shields and Harbor 20 (after passing written and skills tests)
- Racing, cruising and social events
- Meeting announcements and information newsletters
- Opportunity to meet and enjoy the company of kindred spirits
- Placement on the OCC SA crew list for racing and cruising opportunities
- More sailing opportunities, which translates into more sailing skill

Membership Commitment

- A one-time initiation fee of \$100. Future annual renewal fee of \$75
- A cheerful and willing spirit to participate in voluntary group activities
- Monthly Meetings

General membership meetings featuring topics of interest to sailing enthusiasts are normally held at the School of Sailing and Seamanship on the last Monday of each month at 7:00 PM. See our monthly newsletter.

Member Sailboat Rental Privileges

Our sailboat rental fleet consists of Lido 14 dinghies, 20' Harbor 20 keelboats, and 30' Shields sloops.

To enjoy access to our rental fleet at great rates you must be a current member of the OCC Sailing Association, pass a boat specific written test, a rules test, and regardless of sailing experience and ability, you **MUST** complete an on-the-water skills assessment with one of our instructors for the practical test. A passing grade on the written test is required prior to scheduling the practical test.

The rental fleet is available by reservation or on an "as available" basis with priority given to scheduled classes. We are a self-service rental facility and when you rent a sailboat you are required to launch, rig, de-rig and clean up your boat.

An on-the-water review with an instructor is required for those who have not sailed with us in the past 12 months. No exceptions.

Basic Cruising 1

Prerequisite: Shields 2 or equivalent

This course is for students with intermediate sailing skills, but little or no experience running a mid-sized auxiliary cruising boat. Basic systems will be examined including water, electrical and engine systems. Practical skills such as docking, maneuvering under power and sail, managing heel, reefing and crew overboard are taught. Bring a lunch. Min 3/Max 5 students.

Basic Cruising 2

Prerequisite: Basic Cruising 1 or equivalent

This course builds on skills learned in Basic Cruising 1 and introduces more advanced skills to prepare the sailor for safe local cruising. Topics will include review of boat systems, advanced sail theory, float plan, safety equipment, emergency tiller, medical emergencies, sailing emergencies, anchoring, marine weather, basic navigation and heavy weather techniques. Bring a lunch. Min 3/Max 5 students.

Basic Cruising Certification Course

Prerequisite: Basic Cruising 1 or equivalent, and US Sailing Basic Keelboat Certification

The next step in the US SAILING Keelboat Certification Series, this course is for students who have passed the Basic Keelboat Certification and completed Basic Cruising 1. This jam-packed course will prepare you to skipper a cruising sailboat in more challenging conditions and on longer day sails. Course topics include preparation to sail, leaving and returning to the dock under power, crew operation & skills, crew overboard recovery, reefing, heavy weather techniques, anchoring, sailing in close quarters, handling emergencies, some navigation and more. Completion of this course prepares you for sail training trips to Catalina, the Northern Channel Islands and the Bareboat Cruising Certification. Min 3/Max 5 students.

All About Anchoring and Navigation on a Weekend Catalina Cruise

Prerequisite: Basic Cruising 1 or equivalent

Discover the world of cruising aboard our Catalina 42 *Betty*. Your weekend starts off with an overview of safety gear and procedures. You will then get underway and experience a full day of sailing. Along the way, this course answers the practical questions you have about navigating your way to Catalina. After arriving at Catalina you will anchor near Emerald Bay for the evening. Saturday will be spent setting bow and stern anchors at Little Fisherman before working our way down east and anchoring in four or five coves underway for a tour

of the best north side anchorages. Sunday we will navigate our way home to Newport. Crew members participate in all aspects of boat handling including steering, navigation, sail handling, log keeping, anchoring, and cleanup.

Experience is the real teacher when it comes to navigation and anchoring. For many new cruisers the primary concern is having to anchor once they arrive at Catalina if no moorings are available. This course will make solving that problem an interesting and satisfying experience and serves as the gateway to self-reliance and an excellent preparation for Bareboat Cruising Certification.

Min 4/ Max 5 students.

Text: *US Sailing Basic Cruising*

Northern Channel Islands Cruising

Prerequisite: Basic Cruising 1 or equivalent

A cruise to the Channel Islands aboard *Betty* is a great way to explore this incredible area for the first time. Known for their rugged and pristine beauty and their windy coastlines, the islands make for challenging and spectacular cruising. Weather permitting the cruise will include visits to Anacapa, Santa Cruz and either Santa Rosa or San Miguel Islands. Most nights are spent at anchor, with ample time for exploring ashore. Everyone rotates duties on board including sail handling, steering, anchoring, watch standing and cleanup.

The cruise is designed for sailors who've acquired intermediate skills, and is perfect for sailors seeking an overnight cruising experience. The course fee includes all permits and meals.

Students who have earned a US Sailing Basic Cruising Certification may complete their US Sailing Bareboat Cruising Certification on this cruise. An additional fee of \$50 will apply. Please contact the office if you chose this option.

Min 4/Max 5 students.

Text: *US Sailing Bareboat Cruising*

Start-End	Day-Time	# Sessions	Fee

10/2-10/6	8am Wed to 5pm Sun	5-day liveaboard	\$930

California Cruising

Prerequisite: Basic Cruising 1 or equivalent

Join us for one or both off shore passages to Santa Barbara Harbor and Back. Each leg covers more than 300 nautical miles, while exploring Catalina Island, Santa Barbara Harbor and Santa Cruz Island.

We will be island hopping between Newport Beach and Santa Barbara Harbor and plan to spend each night at anchor. Your instructor will focus on the cruising experience, safety, navigation, anchoring, sail handling, provisioning and route planning with all crew members participating equally in the operation of the boat. This is an excellent opportunity for an off shore adventure, getting your US Sailing Bareboat Certification, and experiencing the Channel Islands. The train station in Santa Barbara is very near the marina, simplifying transportation for each leg of the trip.

Each Leg is an excellent voyage for students ready to pursue their US Sailing BAREBOAT Certification. If you choose this option please register for the certification course scheduled for the same dates. A \$50 certification fee applies. Min 4/Max 5 students.

Text: *US Sailing Bareboat Cruising*

Leg 1 - Newport Beach to Santa Barbara Harbor

Aug 24 – 27 8am Sat to 5pm Tues \$850

For Leg 1 we plan to spend our first night out at Catalina, then on to the little jewel of Santa Barbara Island followed by a visit to Santa Cruz Island before sailing in to Santa Barbara Harbor on Tuesday afternoon.

Leg 2 - Santa Barbara Harbor to Newport Beach

Aug 29- Sept 1 8am Thurs to 5pm Sun \$850

We will spend the first night of Leg 2 at Santa Cruz Island, then down to Santa Barbara Island and off to Catalina before sailing in to Newport Harbor on Sunday afternoon.

OCC's Catalina 42 Betty is a well-equipped coastal cruiser with four cabins, and she has spent plenty of time in the Channel Islands. This is a great opportunity for sailors with intermediate sailing skills looking for an off shore cruising experience and cruising beyond Catalina.

Bareboat Cruising Certification Course*

Prerequisite: US Sailing Basic Cruising Certification. Catalina Cruising experience recommended.

Enjoy the live aboard experience and offshore sailing while earning your US SAILING Bareboat Certification.

This course is for students who are seeking adventure and fun in the context of a demanding live aboard sail training adventure. Students will participate in all aspects of an offshore cruise including provisioning, meal preparation, watch standing, steering, sail handling and cleanup. This course gives students the hands-on experience necessary for building offshore confidence.

Students will be directly involved in route planning. The objective of any route is to challenge and instruct without taking unnecessary risks. Routes and destinations may change due to weather/safety and seamanship reasons. Min 3-Max 5 students.

Coastal Navigation 1

A great course for boaters new to navigation, students planning a first cruise to Catalina and students needing a refresher before taking the USCG Licensing course. While the skills of coastal navigation have evolved over the years, the basic goal is still to determine your position and to find a safe route to a destination using landmarks, both natural and manmade, as reference points. Class begins with an introduction to charts and plotting tools. By the second week, you will be finding direction. Other topics include plotting, time/speed/distance calculations, compass and compass error, bearings, positioning and running fixes. This course has a strong emphasis on practical skills and students should expect one or two hours of homework per week. 7 sessions. Min 10-Max 20 students.

Text & Materials: *Basic Coastal Navigation* 2nd Edition, Chart 18746, Chart TR1210 and plotting tools.

Day	Start-End	Time	# Sessions	Fee*
Wed	1/16-2/27	6:30-9:30	7	\$175
Thurs	4/11-5/23	6:30-9:30	7	\$175
Wed	9/18-10/30	6:30-9:30	7	\$175

*text and materials not included

Coastal Navigation 2 with GPS

Designed to help you develop basic coastal navigation and piloting skills. This course will start with a brief review of Coastal Nav 1 before moving on to new course topics including current navigation (tides and tidal current calculations), set and drift and the ability to offset their effect on your vessel. The last evening will focus on GPS, GPS chart plotters, creating waypoints and routes. Students are welcome to bring their own GPS units. Min 6 students.

Text & Materials: *Basic Coastal Navigation* 2nd Edition, Chart 18746, Chart TR 1210 and plotting tools.

Day	Start-End	Time	# Sessions	Fee*
Wed	3/13-4/3	6:30-9:30	4	\$140
Thurs	11/14-12/12	6:30-9:30	4	\$140

*text and materials not included

Electronic Navigation

Prerequisite: Coastal Navigation 1 and Introduction to Twinscrew Powerboats, or equivalent experience recommended.

An essential hands-on safety and knowledge course for anyone using modern marine electronics. You will learn basic theory and operation of Radar, GPS/chart plotter, auto pilot, and VHF radio through classroom exercises and underway in Newport Harbor.

Using the electronics aboard *Nordic Star* (at the dock) you will gain confidence entering waypoints and routes and learn how to interface GPS/chart plotter and auto pilot. Your second class is underway aboard OCC's *Tiara 31 Mia Lucia* for an evening cruise through Newport Harbor.

Both *Nordic Star* and *Mia Lucia* are fitted out with new Furuno electronics, including touch screens. *Nordic Star* has three Radar displays for student use, along with her big ship's Radar. Basic time speed and distance calculation methods will be introduced. Min 4/Max 6 students.

Text & Materials: *Navigation Rules & Regulations Handbook*, *Chapman Piloting & Seamanship*, plotting tools, Chart 18754 (Newport Bay)

Day	Start-End	Time	# Sessions	Fee
Wed	3/6-3/13	6:30-9:30pm	2	\$245

Safe Powerboat Handling Certification with California Boater Card

Prerequisite: Ability to swim 50 yards. Students must be 14 years of age or older.

A 16-hour fun course packed with information and training to give you the skills, knowledge and confidence to responsibly operate a single screw powerboat in familiar waters.

You will learn how to perform safety checks, proper set-up, leaving and returning to the dock, use of spring lines, maneuvering at low and high speed, boat control in confined waters, navigation, boat control in open

waters, towing, anchoring, crew overboard, knots and lots more. We also cover weather and tides, right of way rules, navigation, safety and emergency procedures and boating laws.

This course is approved by NASBLA and US Sailing/US Powerboating. Students who successfully complete the course and the written test will receive a US Sailing Safe Powerboat Certification and be eligible for the California Boater Card. Testing is optional. Min 4 - Max 9 students.

Get your California Boater Card with Us!

The California Boater Card is now required for all persons 25 years of age and younger, and by 2025, all persons who operate on California waters will be required to have one. Once issued, the card remains valid for a boat operator's lifetime.

More than one hundred students completed a hands-on class with us in 2018 to qualify for the California Boater Card and you can do it too!

Successful completion of one of the following classes will qualify you for the California Boater Card:

- US Powerboating Safe Powerboat Handling Certification w/CA Boater Card
- US Powerboating Basic Powerboat & Cruising Certification w/CA Boater Card

For more information visit www.californiaboatercard.com

Introduction to Twin-Screw Powerboats

Prerequisite: Ability to swim 50 yards. Students must be 16 years of age or older.

This course is a practical introduction to boat handling and safe powerboat operation for the novice or moderately experienced powerboat operator. The focus is on building confidence during in-harbor maneuvering to reduce tension and increase boat usage. Course topics include boat systems, twin engine operation and helm controls, docking, piloting rules, and safety procedures. Partners of boaters will acquire the skills necessary to handle the boat in an emergency. Min 3/Max 5 students.

Basic Powerboat Cruising Certification

Prerequisite: Introduction to Twinscrew Powerboat handling or equivalent experience. Safe Powerboat Handling Certification recommended. Students must be 16 years of age or older and able to swim 50 yards.

With coaching from a powerboat expert you will move through the skills required for certification and build confidence operating a 29-40' twinscrew powerboat in light to moderate conditions.

The course includes both hands-on instruction and theory to expand your seamanship knowledge and practical boat handling skills. Course topics include boat systems, engine and helm controls, docking and close quarter maneuvering, boat control in open water, anchoring, emergency procedures, VHF radio operation, charts and aids to navigation. This course is approved by NASBLA and US Powerboating. Students who successfully pass the written test and successfully complete the knowledge

and skill requirements (see Certification Standards book) will receive a US Powerboating Basic Powerboat Operation and Cruising Certification and be eligible to apply for the California Boater Card. Course materials along with pre-course homework will be available to students ahead of time to allow ample time to prepare for class. Bring a lunch each day. Min 3/Max 4 students.

Inshore Powerboat Cruising Certification & Night Operation Endorsement

Prerequisite: US Powerboating Basic Powerboat Cruising Certification and three or more days underway on a 30' or longer powerboat.

A perfect course for boaters with intermediate skills seeking overnight cruising and live aboard experience, and an Inshore Powerboat Cruising Certification. The course will focus on the skills, knowledge and equipment needed to safely operate a cruising powerboat on a multiday, near coastal passage by day and night in unfamiliar waters.

Class is taught aboard our Offshore 52' *Soluna* and course topics include boat preparation, boat handling, close quarter maneuvers, navigation, provisioning, cruise planning and float plans, docking, anchoring, windlass use, picking up a mooring and crew overboard.

Your class begins on Friday afternoon with an introduction to vessel systems and equipment aboard prior to a short evening shake-down cruise. Students are welcome to stay aboard, or make other local plans on the first night. The next two days start at 08:00 on Saturday revolving around destinations on either side of the San Pedro Channel such as LA/Long Beach Harbor, Dana Point, Newport Beach, Santa Catalina Island and Huntington Harbor. As a group you will be self-sufficient with stops along the way not only allowing time to admire the beauty of the area, but also gain valuable

experience in planning voyages, exploring various anchoring, mooring and docking techniques, and dealing with emergency situations that can arise underway. Certification is obtained through both practical and knowledge testing. Written tests will be administered underway prior to the end of class Sunday afternoon. Course materials along with pre-course homework will be available to students ahead of time to allow you ample time to prepare for your class. Min 3/Max 4 students.

Text: *Start Powerboating Right*

Fee: \$1,050 – includes fuel, most study materials and certification. Navigation tools and charts are not included. A provisioning budget will be provided. Transportation, hotel and meals ashore not included.

Start-End	Day-Time	# Sessions	Fee
5/17-5/19	3pm Fri to 3 pm Sun	1	\$1,050
11/15-11/17	3pm Fri to 3 pm Sun	1	\$1,050
TBD	3 pm Tues to 3 pm Thurs	1	\$1,050

FLEXIBLE SCHEDULE: Choose a mid-week schedule that works for you. Select three consecutive days Mon-Thurs to fit your schedule.

Fee: \$1,550 - includes fuel, most study materials and certification. Navigation tools and charts are not included. A provisioning budget will be provided. Transportation, hotel and meals ashore not included. 30% discount if 3 or more students. Min 2 students.

International Proficiency Certificate

This passport-style document is required for US citizens chartering in EU waters. Available only to US Citizens and current US Sailing members who have successfully completed the US Sailing Bareboat Cruising certification course. This certificate can also be purchased by powerboaters who are US Powerboating certified through Inshore Powerboat Cruising.

To purchase your IPC please fill out the International Proficiency Certificate Form and return US Sailing/US Powerboating with a check and a passport size photo, or pay online at <http://shop.ussailing.org/international-proficiency-certificate.html>. If you would like US Sailing/US Powerboating to print your passport sized photo please include the Digital Photo at check out.

Cruising Catalina and Santa Barbara Island

Presented by: Marc Hughston

Have you ever worried about whether moorings would be available for you at Catalina? Have you wanted to join the confident cruisers that venture further off shore to tiny Santa Barbara Island? Learn about the possibilities and get your questions answered in this presentation. Marc will discuss more than 20 different anchorages at Catalina and techniques for using bow and stern anchors. Hear about cruising Santa Barbara Island, the smallest island in the Channel Islands National Park. Close enough for a 3-day weekend, yet wild and undeveloped, Santa Barbara Island will become a favorite place to experience abundant sea life, snorkeling, hiking, and of course sailing. Join the world of confident cruisers and learn how to get it done safely, and in good style. Min 6 students.

Text: Anchoring at Catalina

Tues March 26 7:30-9:30
Tues July 23 7:30-9:30

Fee: \$65 (Individual Seminar), \$95 (Series) – text included

Adult First Aid/CPR/AED

Blended Learning – Online & Instructor-led skill session

Prerequisite: Completion of online course prior to instructor-led skill session.

The Adult First Aid/CPR/AED incorporates the latest science and teaches student to recognize and care for a variety of first aid emergencies and how to respond to breathing and cardiac emergencies involving adults. This course meets OSHA/ workplace requirements.

This is a blended learning course including an online portion and an instructor-led classroom skill session. The online portion must be completed prior to attending the in-class portion and must be taken on a PC or tablet with a high speed internet connection. Allow approximately 2 hours and 5 minutes to complete the online portion, but may take longer depending on computer/internet speed.

Upon successful completion of this course you will receive a digital certificate for Adult First Aid/CPR/AED valid for two years. ****IMPORTANT**** Students MUST complete online portion of training BEFORE attending classroom sessions and bring proof of completion to class. Min 2/Max 10 students.

Day	Start-End	Time	Fee

Tues	2/12-2/12	6:00-7:00pm	\$75
Sat	3/30-3/30	10:00-11:00am	\$75
Tues	5/28-5/28	6:00-7:00pm	\$75

Cruising the Channel Islands

Presented by: Marc Hughston

They say if you can cruise the Channels Islands, you can cruise anywhere. These islands in the Santa Barbara Channel are rewarding cruising grounds for local sailors who want to venture beyond Catalina. Cruising the islands successfully requires careful planning, permits, local knowledge, and the right equipment. Using slides and information gathered from many trips aboard *Betty* and other cruising boats, Marc will cover the best anchorages and coves of each island. Route planning from the Dana Point/Newport/Long Beach area, weather, cove selection and local sailing directions will be discussed. Min 6 students.

Tues April 30 7:30-9:30
Tues Sept 24 7:30-9:30

Fee: \$50 (Individual Seminar), \$95 (Series) – materials included

Day	Start-End	Time	Fee

Tues	12/10-12/10	6:00-7:00pm	\$75

Weather for Mariners

Presented by: John Jourdane

The main objective of this course is to explain Offshore, as well as Coastal weather for sail or power boaters, beginning to expert. Perhaps most importantly, it will explain how to interpret weather maps, and how to use onboard routing software to get GRIB files and run optimized routes. The course also shows how to use mid-level weather maps (500 mb) to forecast the movements of the weather systems reported on a surface-analysis map. Course topics will include history of weather forecasting, what causes marine weather, how to read weather maps, weather routing and more. A handout will be given, which provides a list of useful sources of weather information. No test is given and no certification issued. Attendees are encouraged to bring their laptops and try out weather websites.

Tu	Apr 9-23	6:30-8:30pm	\$150
Th	Nov 7-21	6:30-8:30pm	\$150

Expedition Weather Routing

Presented by: John Jourdane

An introductory course in Expedition routing software. The course covers: Using the Settings buttons and Tool bar, installing charts, navigating around the charts, changing predictor lines, and using dividers. Installing polars, getting grib files, setting up a course, editing a course, optimizing the course, comparing courses of different weather models. Using the results from the optimized route. Showing tidal currents. Setting up instrument boxes. Using strip charts, and updating polar files from sailing tests. Using sail charts. MOB.

Sat	Dec 15, 2018	1:00-4:00pm	\$75
Sat	Feb 9	11:00 -2:00pm	\$75
Sat	Dec 14	10:00-1:00pm	\$75

About the presenter: John Jourdane is one of the most experienced offshore sailors and navigators in the world, having sailed over 350,000 miles, and in every major offshore race in the world. John has crossed between the West Coast U.S. and Hawaii 57 times, has crossed the Atlantic Ocean 12 times, and sailed around the world 3 times, including 2 Whitbread Round the World Races. He has used Expedition on races and deliveries for over 10 years. John is the author of "Icebergs, Port and Starboard", "Sailing with Scoundrels and Kings" and "Modern Weather for Sailors".

MARINE GEAR SALE & BOAT AUCTION

**Saturday
June 8, 2019**

Marine Gear Sale - 8:00 am

Tables brimming with nautical stuff!

- Hardware • Rigging • Sails
- Electronic Equipment •
- Plumbing • Electrical • and more ..

Live Auction - 9:00 am

Low or No Minimums!!!

- Great Deals!
- Everything goes!
- All Sales Final

Presented by: Ron Mealey

Join Ron Mealey for one or more marlinespike courses taking you from basic knots to splicing.

Knotting Made Easy

This class will focus on ten basic knots that can be used in a multitude of applications, for both boating & camping. Learn knotting, from bends and hitches, to loops and bindings.

Materials: Braided nylon line - one about 3/8" dia. And one 1/4" dia. each least 5ft in length

Thur	Jan 31	6:30-9:30pm
Thur	Oct 3	6:30-9:30pm

Knots and Splicing

This evening we cover beginning splicing and more basic knot structures. Class will focus on five more knots to add to your repertoire and we will cover how to eye-splice laid (twisted) line. Bring your own 5-foot length of line. Laid line is supplied at cost for splicing, but feel free to bring your own.

Materials: Lines not less than 3/8" dia, and not more than 1/2" dia. are recommended for this class.

Thur	Feb 7	6:30-9:30pm
Thur	Oct 10	6:30-9:30pm

Splicing, Seizing and Whipping

Splicing with laid line is a treasured skill of old salts everywhere. Couple this skill-set with the ability to seize one line to another and to successfully whip the ends of your lines into shape, and your craft will be the envy of your dock! You will learn how to short splice and long splice laid lines, form a flat seizing, a round seizing, a racking seizing, how to apply a common whipping and a palm and needle whipping.

Materials: Fid, palm and needle

Thur	Feb 21	6:30-9:30pm
Thur	Oct 17	6:30-9:30pm

Splicing Double Braided Nylon Line

Splicing Double Braided Line is an art unto itself. We will cover this special bit of seamanship. You will be able to replace a worn eye splice, and splice together double braided lines that may have parted. This is a necessity while cruising.

Materials: Inexpensive Double Braided nylon about 10 feet in length; wire fid 8"-10" long, measuring tape or ruler, electrical tape, and a knife.

Thur	Feb 28	6:30-9:30pm
Thur	Oct 24	6:30-9:30pm

Diesel Mechanic in A Day

Presented by: Boatswains Locker

Prerequisite: No experience necessary

With just six students, a diesel engine, tools, and a great instructor, this course allows you to turn the wrenches and perform tasks that every boat owner should know. You will learn how to bleed injectors, replace impellers, adjust valves, clean out heat exchangers, adjust belts, change fuel and water systems, and replace starters and fuel pumps. We'll provide the gloves! In addition to all the hands on training, you'll also learn basic maintenance and what tools to have on board. Min 4/Max 6 students.

Fee: \$290

Sat	1/19	9:00-4:00
Sat	2/16	9:00-4:00
Sat	3/2	9:00-4:00
Sat	4/13	9:00-4:00
Sat	5/18	9:00-4:00
Sat	6/22	9:00-4:00
Sat	7/27	9:00-4:00
Sat	8/17	9:00-4:00
Sat	9/14	9:00-4:00
Sat	10/26	9:00-4:00
Sat	11/9	9:00-4:00
Sat	12/14	9:00-4:00

Fiberglass Repair & Maintenance

Presented by: Robert Dalrymple

Whether your vessel is a surfboard, a 6ft dinghy or a 60' trawler, you will receive valuable tips on how to care for and repair fiberglass. Topics will include general care and maintenance, large and small repairs, matching gel coat, an introduction to paint finishing and the prevention and repair of blisters. Min 6 /Max 12 students.

Fee: \$85

Fri	3/8	9:00-12:30
Fri	8/23	9:00-12:30

Fiberglass & Paint Series

Register for both classes and save!

Series Fee: \$165.00

Outboard Maintenance & Troubleshooting

Presented by: Boatswains Locker

Prerequisite: No experience necessary

Learn the basics you need to maintain and troubleshoot your outboard engine with special emphasis on diagnosing common problems and fixing them underway. Topics will include maximizing outboard life, correct fuel mixtures and purchasing a new outboard.

Min 4/Max 6 students.

Fee: \$145

Sat	1/26	9:00-1:00
Sat	2/23	9:00-1:00
Sat	3/9	9:00-1:00
Sat	4/20	9:00-1:00
Sat	5/4	9:00-1:00

Sat	7/20	9:00-1:00
Sat	8/10	9:00-1:00
Sat	9/21	9:00-1:00
Sat	10/19	9:00-1:00
Sat	11/16	9:00-1:00
Sat	12/7	9:00-1:00

Paint and Varnish Your Boat Like a Pro

Insider tips from a professional yacht painter

Presented by: Marc Templin

Today's marine paints and varnishes are easier to use than ever before. But to realize great results you still must know the secrets of preparation and application. With more than 30 years of experience painting and varnishing all kinds of boats and surfaces, Mark Templin can help you paint like a pro. Mark will cover all the products needed for prep, paint or varnish. Best of all, you will get to practice his techniques in class, including surface prep, cleaning for paint, proper mixing, the "roll and tip" method for brushing and covering up your mistakes! This one course (be sure to take notes) will save you time and money. Best of all, you'll be proud of your results. Min 6/Max 12 students

Fee: \$99

Fri	3/8	1:00-5:00
Fri	8/23	1:00-5:00

Radar Observer Unlimited (5 days)

A great class for all mariners who wish to obtain a US Coast Guard Endorsement as a Radar Observer Unlimited, and a required certification for officers on radar equipped vessels. The objectives of this course is to train candidates in the proper setup and use of RADAR for risk assessment, navigation and collision avoidance. Fundamentals of radar theory and equipment, rules of the road, and radar navigation are covered. Utilizing TRANSAS 5000 Simulators candidates will operate their own vessel and Radar with landmasses, environmental effects and target vessel returns.

Successful completion of this course will qualify candidates for an Unlimited Radar Endorsement to their license. This endorsement is valid for five years from date of issue. Min 4- Max 18 students.

Day	Start-End	Time	# Sessions	Fee
M-F	1/7-1/11	8:00 - 5:00	5	\$875
M-F	4/8-4/12	8:00 - 5:00	5	\$875
M-F	7/8-7/12	8:00 - 5:00	5	\$875
M-F	10/7-10/11	8:00 - 5:00	5	\$875

Radar Observer Refresher (3 days)

A 3-day class for the mariner who needs to renew his/her Radar Observer Unlimited endorsement, but has not done radar plots for an extended period of time. This course provides a thorough refresher of Radar Plotting techniques and assessment. This course utilizes the same equipment and assessments as the five-day course and satisfies all of the same requirements. Min 4/Max 18.

Private sessions for groups of 3 or more available upon request.

Day	Start-End	Time	# Sessions	Fee
M-W	1/7-1/9	8:00 - 5:00	3	\$450
M-W	4/8-4/10	8:00 - 5:00	3	\$450
M-W	7/8-7/10	8:00 - 5:00	3	\$450
M-W	10/7-10/9	8:00 - 5:00	3	\$450

Radar Observer Renewal (1 day)

As required for renewal of the Radar endorsement every five years this course is designed for the mariner who does radar plotting regularly. This course is for assessments only, without instruction. Successful completion will qualify the mariner for the unlimited endorsement for their license. Min 2 students.

Fee: \$250

Call The School at 949-645-9412 to arrange date.

Marine Radio Operator's Course

Presented by: Gordon West

Prerequisite: You must be a legal resident or eligible for employment in the United States and be able to receive or transmit spoken messages in English. Two types of ID required (driver's license, passport, social security card, TWIC card, etc.).

This one-day licensing class covers Federal Communications Commission (FCC) Marine Radio rules and regulations, communication procedures, equipment operations and other radio equipment on vessels.

The FCC Marine Radio Operator's Permit (MROP) exam will be given in class. A passing grade will result in the lifetime FCC MROP license. Additionally, the MROP is a required license for virtually all other FCC commercial licenses, including GMDSS.

Class Fee: \$99 Fee includes West's study notes

Exam Fee: \$40 Payable to examiner. Due at end-of-class testing.

Tu	Jan 29	9:00-4:30pm, Lunch 12:00-1:00pm
Th	Apr 4	9:00-4:30pm, Lunch 12:00-1:00pm
Tu	Jun 18	9:00-4:30pm, Lunch 12:00-1:00pm
Tu	Nov 21	9:00-4:30pm, Lunch 12:00-1:00pm

About the presenter: Gordon West is a member of the Coast Guard Auxiliary, and teaches advanced classes on radio, navigation, and maritime electronics. Gordon is certified for FCC and US Coast Guard radiotelephone inspections to compulsory equipped small passenger vessels. Gordon is also a certified State of California Vocational instructor, teaching for more than 40 years. His students have travelled all over the world using their radio licenses.

USCG License Exam Prep Course For Master/Mate (near Coastal or Inland Waters), or Operator, Uninspected Passenger Vessel (OUPV)

Our Master/Mate and OUPV courses are designed for power and sail boaters, commercial operators and yachtsmen wishing to pursue either a professional career, or part time work in commercial vessel operations, including carrying passengers for hire, and recreational boaters wishing to increase both knowledge and skills.

This course provides an intensive curriculum designed to review and reinforce the skills needed to obtain a USCG license. Course subjects will include general seamanship, Navigation Rules, Coastal Piloting and Plotting, weather, tides and currents, use of reference publications, deck operations and safety. Assistance towing is routinely included as part of our license training.

Students are provided with an official copy of the Navigation Rules, required training charts, a student workbook and study guide, quizzes, exercises, and other materials.

Our course is available as a 2-week course with class meeting daily Mon-Sat, or for those who would like to work while attending classes, we have a 5-week course meeting three evenings and Saturday each week. Each course is intensive and fast paced. License candidates must be able to attend all classes and have ample time to study between class meetings.

The U.S.C.G exam is administered at the end of the course.

Registration:

An in person registration appointment is required to register and early registration is advised. Register 30 or more days before class start and save \$100.

Min 6/Max 16 students.

License Requirements:

1. Documented Sea time - A minimum of 360 underway days as paid or volunteer skipper or crew for Master Inland/Mate Near Coastal and OUPV (720 days for Master Near Coastal).
2. TWIC Card
3. Proof of US Citizenship
4. Current First Aid and CPR certification. See the USCG website for recognized cards or sign up for our Red Cross course.
5. A physical exam and a drug screen (details provided at registration)

Course Schedule & Fees*

\$1299**	Master/Mate not in excess of 100GT
\$1299**	Operator Un-inspected Passenger Vessel
\$0.00	Towing Endorsement included in Master/Mate & OUPV course fee
\$100**	Sail Option (4 instructional hours)

**Early Registration - \$1199 if registering 30 or more days prior to the start of class.*

*** Course fee does not cover plotting materials, First Aid & CPR certification, physical & drug screening and U.S. Coast Guard TWIC Card and Application Fees. A \$100 non-refundable deposit is included in the course fee*

Professional Mariner Program

The Professional Mariner Program gives students a competitive edge when seeking employment in the yacht and workboat maritime professions. The program includes both classroom instruction and hands-on practical experience. Previous boating experience is advantageous but not required.

A **Certificate of Achievement** from Orange Coast College is awarded to students successfully completing MARA A150, A151, A152, A153, A154 & A156 listed below and three additional units of electives.

An **Associates of Science** Professional Mariner degree can be obtained by fulfilling the requirements for a Professional Mariner Certificate, with the addition of MARA A136 or A137, A157, A200 & A201, general education courses, and transferable electives that satisfy unit requirements. See the OCC catalog for general education information.

Enrollment & Registration: Students must be enrolled at Orange Coast College to register for all Marine Activities (MARA) courses. Most courses are conducted at the School of Sailing and Seamanship. Enrollment and registration information is available online at www.orangecoastcollege.edu. For a Professional Mariner Program brochure contact the Professional Mariner Coordinator at 949-258-8918.

Fee: \$46/unit - texts not included. Additional fees include health, parking and non-resident tuition if applicable. Some classes may have an equipment or site fee.

Radar Observer*

MARA A157- 8 WEEKS - FALL OR SPRING SEMESTER

Using radar simulators, students will learn limitations and advantages of radar system, radar navigation and collision avoidance. Successful students will receive a Certificate of Completion for the U.S. Coast Guard Radar Observer endorsement. 2 units.

Introduction to Sailing

MARA A136 - 8 WEEKS - FALL OR SPRING SEMESTER

The novice sailor will learn the fundamentals of sailing through dockside lectures and hands-on experience. This course is taught in small (14') boats. 1 unit.

Prerequisite: Ability to swim 50 yards and tread water for five minutes.

Intermediate Sailing - Maritime Industries

MARA A151 - 16 WEEKS - FALL SEMESTER

Students will explore marine industry careers and the job skills needed for working in the marine industry, both on and off the water. 1 unit.

Prerequisite: Successful completion of MARA A136 or equivalent experience

Boat Handling and Seamanship

MARA A152 - 16 WEEKS - FALL SEMESTER

Students learn to operate motor boats and tenders. Practical training includes boathandling underway, anchoring, overboard rescue, and night operations. Successful students qualify for the CA boater card and US Powerboating certifications. 3 units.

Prerequisite: Ability to swim 50 yards and tread water for 10 minutes. MARA A151 or concurrent enrollment.

Marine Basic Safety Training

MARA A153 - 16 WEEKS - SPRING SEMESTER

Basic fire fighting, personal survival training, First Aid, CPR, personal safety and social responsibility are taught in this hands-on course. Successful students will qualify for the US Coast Guard STCW-95 Basic Safety Training certificates. 4 units.

Prerequisite: Ability to swim 50 yards and tread water for 10 minutes. A certificate fee may apply.

* classes taught on OCC's main campus.

*Yachtkeeping & Engine Maintenance**

MARA A154 - 16 WEEKS - SPRING SEMESTER

Students gain hands on experience in all aspects of boat maintenance including, maintaining diesel engines and gasoline outboard engines. 2 units.

Coastal Navigation

MARA A150 - 16 WEEKS - FALL SEMESTER

Students will interpret charts, plot positions and courses, determine the effects of tides and currents relating to coastal piloting. Passage planning and boating safety legal requirements will be included. Maybe taken for grades or on a pass-no pass basis. 3 units.

Maritime Environment

MARA A156 - 16 WEEKS - FALL SEMESTER

Students will learn about global and local weather patterns, tides, currents, regulations, ecosystems, and conditions that affect the commercial and recreational mariner. 2 units

Introduction to Keel Boats

MARA A137 - 8 WEEKS - FALL OR SPRING SEMESTER

Introduces the intermediate sailor to the fundamentals of sailing through dockside lectures and hands-on experience in Shields 30 sloops. 1 unit.

Prerequisite: Marine Activity A136 or Kinesiology A136, or basic sailing skills, and the ability to swim 50 yards and tread water for 5 minutes.

Professional Mariner Internship

MARA A200 - 16 WEEKS - FALL OR SPRING SEMESTER

A supervised internship related to classroom-based learning at a maritime related work site. This course is designed as a supervised internship course for the Professional Mariner student. The student will gain experience in a marine related position that bridges classroom based learning with career goals. 2 units.

Prerequisite: Marine Activities A150, or A151, or A152 or A153.

Professional Mariner Internship Lecture

MARA A201 - 16 WEEKS - FALL OR SPRING SEMESTER

This course provides instructor-guided preparation related to classroom-based learning at a maritime-related work site. This course is designed as a supplement to the supervised internship course for the Professional Mariner student. Transfer Credit: CSU. 1 unit.

Co-requisite: Marine Activities A200.

Youth Outreach Program

Learn to Sail & Boating Safety Courses for School & Youth Groups

For more than 20 years The School of Sailing & Seamanship has offered “Safe Boating” and “Learn to Sail” courses to youth in the Orange County area. The program offers a unique opportunity for students to experience our local waterways. In recent years our Sailing & Science camp has joined our traditional Learn to Sail Camp and Safe Powerboat Handling Camp

*The program is **FREE** to programs serving at-risk” youth thanks to a grant from California State Parks - Division of Boating and Waterways.*

Our **Summer Sailing Camps** are an ideal place for kids and teens to explore sailing for the first time. The goal of the Learn to Sail Program is to build confidence and self-esteem through the sport of sailing. Sailing requires agility, skill, teamwork and concentration and with games, races and other activities individual, and team working skills are enhanced.

Campers in the **Powerboat Camp** will learn how to safely operate small boats powered by outboard engines. This 16-hours course allows time for both hands-on instruction and theory to build seamanship knowledge and practical boat handling skills. Students will have the option take the test required to obtain a California Boater Card.

In the **Sailing and Science Camp** students will learn to sail while exploring the forces at work in and around the boat in a camp filled with hands-on learning and fun activities from boat building to navigation, environmental stewardship and sailing adventures. Sailing offers a myriad of opportunities to balance learning and fun in a dynamic way with campers building confidence and self-esteem while having fun enjoying the outdoors.

Operating a boat requires knowledge, skill, teamwork, concentration and a sense of responsibility. The Youth Outreach Program, taught by OCC’s certified sailing and powerboat instructors, builds essential skills, confidence and self-esteem while students are having fun and enjoying the outdoors.

Over the years’ participants have come from groups such as Families First, American Family Housing, Phoenix House, KidWorks, SOY, Joplin Youth Center, Back Bay High School and Ensign Middle School.

The program runs year round and is available to all School and Youth groups as After School Sailing classes, school day PE classes or summer camps. Give us a call or visit our website for more information.

Join us in cleaning up in and around the Sailing Center and around the bay.

SAT, SEPT 14, 2019
9AM TO 12PM

CALIFORNIA COASTAL CLEANUP DAY

Coffee and donuts start at 8:45 am.
Please register online at www.occsailing.com starting on Sept 1, 2019.
We encourage participants to bring their own bucket/bag, reusable gloves and a reusable water bottle.

BEARD

Sailing & Science Camp for Kids

Prerequisite: Age 7 to 13 and ability to swim 50 yards

Learn to sail while exploring the forces at work in and around your boat in a camp filled with hands-on learning and fun activities from boat building to navigation and sailing adventures. Sailing offers a myriad of opportunities to balance learning and fun in a dynamic way with campers building confidence and self-esteem while having fun enjoying the outdoors.

Each student must bring warm layered clothes, a change of clothes, a towel, hat and a snack each day.

Min 6/Max 24 students.

Parent and Child – Learn to Sail

Prerequisite: Open to children 6 – 13 years old participating with an adult. All students must be able to swim 50 yards.

A fun class for families to spend time together unplugged and enjoying the outdoors, sharing the adventure of learning to sail. You and your child will learn how a sailboat works, basic sailing terminology, parts of the boat and knot tying, and you will work as a team to rig and sail the boat on the calm waters of Newport Bay. Children must attend class with a parent or guardian.

Min 8/Max 24 students.

Day	Start-End	Time	# Sessions	Fee (per participant)
Sun	4/28-5/5	10:00-1:30	2	\$55
Sat-Sun	6/22-6/23	10:00-1:30	2	\$55
Sat-Sun	8/3-8/4	10:00-1:30	2	\$55
Sat-Sun	9/21-9/22	10:00-1:30	2	\$55

After School Sailing

Prerequisite: Ability to swim 50 yards.

After a long day at school what could be better than a fun afternoon on the water? New and returning sailors ages 7 to 13 will build sailing skills and gain confidence on the water while sailing OCC's Lido 14 dinghies on Newport Harbor. New sailors will learn water safety, rigging, parts of the boat, basic boat handling and knots. Returning sailors will focus on boat handling including balance and team work, sail trim and improving their tacking and jibing skills. Longer harbor sails, fun short course racing, games and drills will help tie it all together.

Sailors should bring seasonal layered clothing, a change of clothes (just in case!), a towel, hat and a snack each day.

Day	Start-End	Time	# Sessions	Fee
Wed	3/6-4/3	3:30-6:00	5	\$135
Wed	4/17-5/15	3:30-6:00	5	\$135
Wed	5/22-6/19	3:30-6:00	5	\$135
Wed	9/11-10/2	3:30-6:00	4	\$110
Wed	10/9-10/30	3:30-6:00	4	\$110

Multiple session discount: Register for 2 or more sessions and save \$10 on each additional session.

2019 Junior Summer Sailing Camps

Sailing camp is a unique opportunity for youth ages 7 to 16 to experience our local waterways, discover the magic of sailing and learn the skills they need to safely sail a small boat.

Sailing is a great teacher of life skills and students will learn about teamwork, problem-solving, cause and effect, science and technology, and much more along the way. Our certified sailing instructors will help young sailors build skills, gain confidence and self-esteem while having fun and enjoying the outdoors.

Classes are offered for beginning through more advanced sailors allowing young sailors to find a class to fit their experience level. Each day of sailing camp will include classroom instruction, demonstrations and on-the-water practice. Campers will work together to rig, de-rig and sail Lido 14 dinghies. Each session includes introduction and practice of new skills, STEM and marine environment topics and a review of the day. Fun games and special events will also be included each week. Select from our comprehensive schedule of classes and create your own summer of fun on the water.

Fees:	Before June 1	After June 1
1-week Learn to Sail*	\$165	\$190
Intermediate Camp	\$165	\$190
Intro to Racing	\$165	\$190
Multi-week Discount	\$15 per each additional week	
Sibling discount	\$15	

Fees include: OCC Summer Sailing Camp T-shirt and Friday Hot dog BBQ lunch. Friday lunch is served 12:15 to 12:45 pm for am and pm students.

Gear & Stuff: We recommend students bring a jacket, hat, change of clothes, towel, sunscreen and a daily snack.

Learn to Sail

Young sailors ages 7 to 16 will learn how to sail using Lido 14 dinghies. Working in teams of two or three, students will rig, sail and de-rig the boat. Each Learn to Sail Level will introduce new skills and all skills will be practiced and reinforced. Sailing offers a myriad of opportunities to balance learning and fun in a dynamic way with students building confidence and self-esteem while having fun enjoying the outdoors. Students will be grouped by age to provide the best learning experience for everyone.

Learn to Sail - Level 1

Prerequisite: Ages 7 – 16 and able to swim 50 yards. No sailing experience necessary.

In Level 1 students will learn the basic concepts of sailing including points of sail, tacking and jibing, water safety, basic terminology, parts of the boat, capsize recovery and knots.

Day	Start-End	Time	# Sessions	Fee
M-F	6/17-6/21	9:00-12:30	5	\$165

M-F	8/12-8/16	9:00-12:30	5	\$165

Learn to Sail - Level 2

Prerequisite: Ages 7 – 16 and able to swim 50 yards. Successful completion of Level 1 or similar experience.

In Level 2 we will focus on reinforcing key sailing concepts and the fundamentals of boat handling and sail trim.

Day	Start-End	Time	# Sessions	Fee
M-F	6/24-6/28	9:00-12:30	5	\$165
M-F	7/1-7/3	9:00-12:30	3	\$99
M-F	7/15-7/19	9:00-12:30	5	\$165
M-F	7/22-7/26	9:00-12:30	5	\$165
M-F	7/29-8/2	9:00-12:30	5	\$165
M-F	8/5-8/9	9:00-12:30	5	\$165
M-F	8/12-8/16	9:00-12:30	5	\$165
M-F	8/19-8/23	9:00-12:30	5	\$165

Level 3 - Learn to Sail with Science

Prerequisite: Ages 7 – 16 and able to swim 50 yards. Successful completion of Level 2 or similar experience.

In Level 3 we will explore the forces at work in and around the boat with science related, hands-on learning and fun activities from boat building to navigation and sailing adventures.

Day	Start-End	Time	# Sessions	Fee
M-F	7/1-7/3	9:00-12:30	3	\$99
M-F	7/8-7/12	9:00-12:30	5	\$165
M-F	7/22-7/26	9:00-12:30	5	\$165
M-F	7/29-8/2	9:00-12:30	5	\$165
M-F	8/5-8/9	9:00-12:30	5	\$165
M-F	8/12-8/16	9:00-12:30	5	\$165

Intermediate Sailing

Prerequisite: Ages 10 to 16 and completion of Learn to Sail Level 3 or equivalent experience

Building on skills from Learn to Sail Level 3 students will continue to improve their boat handling and seamanship skills. Sailing in the afternoon breeze this class emphasizes team work as students practice tacking, jibing, sailing on all points of sail and using proper sail trim to further develop their confidence on the water. Tell tales and tiller extensions will be introduced as sailors learn to sail their boats fast and efficiently. Sailors in this class can rig their boats independently.

Day	Start-End	Time	# Sessions	Fee
M-F	6/24-6/28	1:00-4:30	5	\$165
M-F	7/8-7/12	1:00-4:30	5	\$165
M-F	7/22-7/26	1:00-4:30	5	\$165
M-F	8/5-8/9	1:00-4:30	5	\$165
M-F	8/19-8/23	1:00-4:30	5	\$165

Youth Powerboat Training

Prerequisite: Ability to swim 50 yards. Students must be 10 years of age or older.

A fun class for kids and teens packed with information and training to give you the skills, knowledge and confidence to responsibly operate a powerboat in familiar waters. Class topics include: safety checks, proper set-up, leaving and returning to the dock, use of spring lines, boat control in confined waters, navigation, boat control in open waters, towing, anchoring, crew overboard, knots and lots more.

Introduction to Racing

Prerequisite: Ages 10 to 16 and completion of Intermediate Sailing or equivalent experience

A performance oriented class for graduates of the Intermediate class. Sailors in this class will continue to expand their skills on the water as they learn advanced sail trim, proper use of body weight, heeling under control, roll tacking, advanced boat handling skills, weather recognition, and capsize recovery. Racing topics will include tactics, starts, mark-rounding's, boat speed and the racing rules. Additionally, on the water games and short course races will allow each student to advance his or her sailing skills in a more challenging environment.

Day	Start-End	Time	# Sessions	Fee
M-F	7/15-7/19	1:00-4:30	5	\$165
M-F	7/29-8/2	1:00-4:30	5	\$165
M-F	8/12-8/16	1:00-4:30	5	\$165

Sailing Camp Series

Register for 2 weeks of Sailing Camp and save \$10 a week

Register for 3 weeks of Sailing Camp and save \$15 a week

We also cover weather and tides, right of way rules, navigation, safety and emergency procedures and boating laws in the classroom.

This course is approved by NASBLA and US Sailing/US Powerboating. Students who successfully complete the course and the written test will receive a US Sailing Safe Powerboat Certification and be eligible for the California Boater Card. Testing is optional. Min 4/Max 9 students.

Nordic Star Cruises

Our flagship *Nordic Star* will continue her double life in 2019, operating as a training vessel for students in OCC's Professional Mariner Program as well as a private charter yacht on Newport Harbor and at Catalina Island.

This Spring and Fall, *Nordic Star* will be used by OCC students who are interested in careers in the maritime industry. The 92-foot aluminum vessel is an ideal "platform" for gaining hands-on experience desired by maritime industry employers. On board subjects include deck operations, fire-fighting, crew overboard recovery and abandon ship procedures. Command/bridge topics include bridge management, piloting, navigation, Radar, navigation plotters, radios, and GPS. Engine room subjects include engine monitoring and control, fuel and water management, engine room safety, electrical distribution, pumps, motors, and bilge systems.

On weekends and evenings, *Nordic Star* is available to individuals and groups for private charter. A US Coast Guard inspected vessel, *Nordic Star* can carry up to 50 guests in the harbor and in local offshore waters. She is an ideal yacht for meetings and celebrations while cruising Newport Harbor or down the coast to Laguna. With her luxurious cabins, she is exceptional for overnight cruises to Catalina Island

or beyond. Charterers have great flexibility to design their own voyages, choosing dates, locations, level of service, and activities. *Nordic Star's* crew normally includes a captain, 1st mate, steward or stewardess, and a cook. Quite often, students from OCC's professional mariner program are integrated into the crew.

Donated to the OCC Foundation in 2010 by the Jerrell Barto family of Newport Beach, *Nordic Star's* maintenance and operation is supported solely by charter income, in-kind gifts, and grants. For the past five years, most of *Nordic Star's* capital improvements have been provided by the Harriet E. Pfleger Foundation.

Visit www.nordicstarcruises.com, or contact us at 949-645-9412 for more information about *Nordic Star* and the Professional Mariner Program.
