

Northern Channel Islands Trip

GEAR LIST

Less is more! Quarters are tight aboard, so please don't take more than what is on this list.

Your gear should fit into one big duffel bag. Use a small duffel or backpack for your toilet kit, books, walkman, diary, and camera. Roll everything up really tight so everything will fit especially your foul weather gear.

You will be able to take "ship showers" on board using fresh water for initial wet down and rinsing.

1. 1 warm jacket (Patagonia type)
2. 1 pair deck shoes; 1 pair shoes for walking/hiking ashore.
3. 4 pair underwear; 1 swimsuit; long underwear.
4. 4 t-shirts; 2 warm long sleeve shirts or sweatshirts
5. 1 pair shorts, two pair jeans or other long pants
6. 1 pair sweatpants
7. 1 bath towel, 1 washcloth
8. Broad-brimmed hat or visor, sailing gloves, 1 pair sunglasses
9. Sleeping bag and small airline-type pillow.
10. Sunscreen, seasick remedy, ear plugs for sleeping
11. Foul weather gear and boots. If you don't have gear, you can buy it at West Marine Products or REI Corp, etc. Jacket should have a hood, and pants should be bib type with suspenders. If you don't want to buy gear, you'll have to take your chances with the weather. No one yet has suffered from hypothermia aboard any OCC trips to the Channel Islands.

** No dark-soled shoes, please, especially black-soled sport shoes.
