

## Social Distancing

Marks on the ground are provided to help maintain at least 6 feet of social distancing. Only one person or family is permitted in the office / Lazarette at one time. To reduce touchpoints, use your member profile online to register for class and print a fillable waiver.

## Facial Coverings

Staff are required to wear facial coverings on the docks and in proximity to students and visitors. We respectfully ask all students and visitors to wear facial coverings while in public spaces and shoreside classrooms.

## Check-In

At the start of each day, staff and students complete a check-in process, which may include taking their temperature.

## Handwashing

Staff are required to frequently wash their hands with soap and water or disinfect with hand sanitizer. We ask all students and visitors to do the same.

## Enhanced Cleaning Measures

We are observing elevated cleaning and sanitizing protocols that meet or exceed public health guidelines.
